Detailed Project Description and Justification:

To fully train a workforce, Alaska is going to need a training provider that has the ability to deliver multiple programs, produce large numbers, and have the ability to adapt and communicate curriculum to Alaska's diverse population. NIT can ful fill all of these needs. We have the ability to deliver over 70 courses, graduated 823 in 2007, and have a documented ability to educate workers regardless of these background. We have done all of this with no monetory support from the State of Alaska.

NIT has been in communication with several of the oil producers and contractors, and with a little support can make giant strides toward an All Alaskan Workforce.

NIT has been accredited so it can accept Alaska Student Loans.

Project Timeline:

2008-2009

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Northern Industrial Training
